Options - Academic Performance Eligibility and Submission Requirements

Option 1 – Presented to Subcommittee

A charter holder that meets the Board's academic performance expectations may submit an *Adding Grade Levels to Charter Amendment Request* without including curriculum samples, unless an Associated School serving the grade levels being requested does not have a current rating of meets or exceeds standard and the Associated School does not qualify for a "special exclusion".

DSP - A DSP is required for each Associated School serving the grades requested and eligible to receive an Overall Rating, and which did not receive an Overall Rating of "Meets Standard" or "Exceeds Standard" for the most recent fiscal year that State assessment data is available, if it was not excluded.

Option 2 - Replication Application Model

A charter holder that meets the Board's academic performance expectations may submit an *Adding Grade Levels to Charter Amendment Request* without including curriculum samples if*:*

- The charter holder requesting expansion meets the Board's academic performance expectations, <u>and</u>
- 75% or more of Associated Schools eligible to receive an Overall Rating have an Overall Rating of "Meets Standard" or "Exceeds Standard" on the most recent Academic Dashboard, <u>or</u>
- If one or more Associated Schools are excluded for academic purposes, then 100% of the remaining Associated Schools eligible to receive an Overall Rating have an Overall Rating of "Meets Standard" or "Exceeds Standard" on the most recent Academic Dashboard.

DSP – A DSP document would not be required for any Associated Schools.

Option 3 – Blended Model

A charter holder that meets the Board's academic performance expectations may submit an *Adding Grade Levels to Charter Amendment Request* without including curriculum samples if*:*

- The charter holder requesting expansion meets the Board's academic performance expectations, <u>and</u>
- (Condition A) 75% or more of Associated Schools serving the grades requested and eligible to receive an Overall Rating have an Overall Rating of "Meets Standard" or "Exceeds Standard" on the most recent Academic Dashboard, <u>or</u>
- (Condition B) If one or more Associated Schools serving the grades requested are excluded for academic purposes, then 100% of the remaining Associated Schools serving the grades requested and eligible to receive an Overall Rating have an Overall Rating of "Meets Standard" or "Exceeds Standard" on the most recent Academic Dashboard.

DSP - If Condition A or Condition B is not met, a DSP is required for each Associated School serving the grades requested, not excluded, and eligible to receive an Overall Rating, and which did not receive an Overall Rating of "Meets Standard" or "Exceeds Standard" for the most recent fiscal year that State assessment data is available.
