**Facilities Plan**

BFCS operates four campuses in the East Valley with one campus each located in Mesa and Gilbert while two campuses are located in Queen Creek. Each of the campuses continues to operate at the location where it was originally opened. Though BFCS may work toward expanding to other locations and additional sites in the future, it does not have any plans for the near future as a result of the current economic downturn and challenged funding stream. With the exception of the adopted reductions in funding for the coming year, BFCS expects relatively stable enrollment, revenues and expenses.
