## **Performance Management Plan**

## Performance Management Plan

A Performance Management Plan is an improvement plan and an accountability agreement between the Charter Holder and the Board for the academic performance of schools operated by the Charter Holder. Performance Management Plans are assigned only to Charter Holders who must improve the academic performance of schools they operate in order to meet the Board's Academic Performance Expectations.

The Performance Management Plan focuses on five areas: Data, Curriculum, Assessment, Monitoring Instruction, and Professional Development, which are essential elements for improving a school's academic performance. Specifically, in order to effectively improve the academic performance of a school there must be **data** driven decision making, utilizing-among other data- **assessments** of student academic performance, to ensure a school has effective **curriculum** and **instruction** and to develop the quality of instruction through effective **professional development**. A Charter Holder who is assigned a Performance Management Plan must create a detailed and comprehensive improvement plan that incorporates each of these elements in order to demonstrate the school is making sufficient progress toward meeting the Board's academic performance expectations.

The Board has created a Template to guide Charter Holders in reflecting on their current processes in these areas, and focusing on these essential elements when creating an improvement plan. A Charter Holder assigned a Performance Management Plan must complete the Performance Management Plan Template according to the Performance Management Plan Instructions and within the timeline provided when the assignment is made. The Performance Management Plan Template and the instructions for its completion are both available on the Board's website.

In its determination of whether a Charter Holder demonstrates sufficient progress toward the Board's academic performance expectations through the submission of a Performance Management Plan, the Board will consider the Charter Holder's thoroughness and detail in creating a plan to improve academic performance. The evaluation rubric, that follows, identifies the criteria that will be used to evaluate a Charter Holder's Performance Management Plan. A Charter Holder's failure to address all pertinent elements in its Performance Management Plan will be considered by the Board in making its determination. The Board may refuse to accept additional information.

The effectiveness of the Charter Holder's plan will subsequently be evaluated through review of the Charter Holder's academic performance when a new Dashboard is released, and if necessary a Demonstration of Sufficient Progress.

## Evaluation Criteria for Performance Management Plan

The following criteria will be used to evaluate a Performance Management Plan submitted by the Charter Holder to demonstrate sufficient progress toward the Board's academic performance expectations. All responses must provide and explain the creation of an improvement plan that is based on the Charter Holder's analysis of the charter school's data and individual circumstances.

All Charter Holders must address the following areas in their Performance Management Plan: Data, Curriculum, Assessment, Monitoring Instruction, and Professional Development. Charter Holders who

receive a “Does Not Meet Standard” or “Falls Far Below Standard” for the Graduation Rate Measure must also address the Increasing Graduation Rate area in their Performance Management Plan. Charter Holders who receive a “Does Not Meet Standard” or “Falls Far Below Standard” for the Persistence Measure must also address the Increasing Academic Persistence area in their Performance Management Plan.

**DATA**

Evidence		
ACCEPTABLE	NOT ACCEPTABLE	
Meets	Does Not Meet	Falls Far Below
The Charter Holder has identified sufficient data to provide a year-over-year comparison for at least the two most recent school years for all measures used by the Board to evaluate academic performance.	The Charter Holder has identified sufficient data to provide a year-over-year comparison for at least the two most recent school years only for the measures in which the school received a rating of “Does Not Meet” or “Falls Far Below” on its most recent Dashboard, but not for all measures used by the Board to evaluate academic performance.	The Charter Holder has failed to identify sufficient data to provide a year-over-year comparison for at least the two most recent school years for one or more of the measures in which the school received a rating of “Does Not Meet” or “Falls Far Below” on its most recent Dashboard.
