

Grade Level Change to Charter Amendment Request

Purpose

The *Grade Level Change to Charter Amendment Request* is used to increase or decrease the grade levels the charter holder is approved to serve and provides the charter holder the opportunity to request an increase in the enrollment cap (if needed) in one submission. This request must be submitted timely so that it may be processed within the timeframe provided in Rule and implemented before the beginning of a school year. If the school year has started or will start prior to the request being considered by the Board, an amendment request may not be submitted for implementation in the current fiscal year.

A change in grade levels served and/or an increase in enrollment cap are not effective until approved by the Board.

*Before submitting this request, **ensure the charter holder is in compliance per the Board's policy.** If a charter holder is not in compliance, the request may be deemed incomplete and the non-compliance may be recorded on the charter holder's operational dashboard.*

Determining Eligibility

To determine whether your charter is eligible to expand, a charter holder, its Associated Schools and Associated Charters (as applicable) must meet eligibility criteria based on its performance on the academic, financial, and operational dashboards. The criteria are found in the "Eligibility Criteria" [The Guide](#).

An eligible charter holder may submit a request to **increase** the grade levels served for up to three fiscal years of anticipated grade levels and **increase** the enrollment cap for up to three fiscal years of projected student enrollment.

Any charter holder is eligible to submit a request to **decrease** the grade levels the charter holder is approved to serve.

Board Consideration

A substantively complete amendment request for a grade level change, or both a grade level change with enrollment cap increase, submitted by a charter holder that meets the eligibility criteria shall be placed on the agenda of a regular Board meeting. A finding that the charter holder is not in compliance in one or more operational areas may result in a delay in consideration of the request.

If a charter holder is eligible to submit a request, it must maintain eligibility prior to Board consideration. For information on maintaining eligibility review the section on "Eligibility Criteria" in [The Guide](#). If the Board approves a request to increase enrollment cap of a charter contract and the *Occupancy Compliance Assurance and Understanding form* is submitted, the request to increase enrollment cap is approved with the condition that the charter holder agrees to provide a Certificate of Occupancy and Fire Marshal's reports approved for educational use, for the additional increase of students within the fiscal year requested. If the charter holder does not fulfill those requirements, the charter holder will have to resubmit an enrollment cap request to the Board for its approval.

Staff Recommendation

A *Grade Level Change to Charter Amendment Request* for an increase in grades served will receive a staff recommendation for the expansion if the charter holder's current data and performance demonstrates all of the following criteria.

Charter Holder has been in operation for three years;
Rating of "Meets Operational Standard" in the most recent Fiscal Year;
Rating of "Meets Financial Performance Standard" in the most recent Fiscal Year;
Previous grade level cohort(s) is/are at capacity and/or could fill enrollment for new grade(s) requested;
ADM is within 85% of current enrollment cap; and
Each school operated by the Charter Holder performs at or above the average performance of a majority of schools within a five-mile radius of the school's location,
OR
Each school offers a unique program of instruction within a five-mile radius of the school's location.

If the request includes an increase in enrollment cap, the charter holder will receive a staff recommendation if its current data also demonstrates the following criterion:

Past enrollment trends indicate need for increase within three years.

Curriculum Sample Instructions and Template

Who needs to use this form?

Charter holders with one or more schools that did not receive an Overall Rating of “Exceeds Standard” or “Above Standard” for the most recent fiscal year in which State achievement profiles are available.

Why?

Curriculum samples provide a representation of a program of instruction aligned to Arizona’s College and Career Ready Standards and to the methods of instruction described in the charter contract, and as amended. The curriculum samples allow the charter holder to demonstrate its capacity to develop a curriculum aligned to these standards and designed to improve pupil academic achievement.

Directions

For each grade level being added, provide curriculum samples for Reading, Writing, and Math using the Curriculum Sample Template. Reading and Writing standards may be addressed in a single English Language Arts (ELA) curriculum sample. If requesting 4th and/or 8th grade, provide a Science curriculum sample.

How many pages can a curriculum sample have?

Each curriculum sample addressing a single content area may not exceed 8 pages. If the Reading and Writing curriculum samples for a grade level are submitted as a single ELA curriculum sample, the ELA curriculum sample may not exceed 12 pages. The 8-page limitation (or 12-page limitation for an integrated ELA sample) includes the completed curriculum sample template fields, summative assessment items, and scoring information included for review.

Which standards may be used?

Each curriculum sample must address at least one standard from a content area (Reading, Writing, Math, or Science) for the grade level requested. If more than one standard is addressed in a curriculum sample, indicate one standard that is instructed and assessed to mastery to be **the focus of review** by putting **(M)** before the standard number.

Reading—Each Reading/ELA curriculum sample must identify as the focus of review one standard from the Reading strand (either Reading for Literature or Reading for Informational Text), **not** to include RL.10 or RI.10.

Writing—Each Writing/ELA curriculum sample must identify as the focus of review one standard from the Writing strand (Text Types and Purposes only—**W.1, W.2, or W.3**).

Mathematics—Each Mathematics curriculum sample must identify one standard from Mathematics to be the focus of review, along with the Standard(s) for Mathematical Practice addressed by the instructional strategies and student activities in the curriculum sample. Standards for Mathematical Practice may not be the focus of review, but should be identified by number when addressed in the instructional strategies and student activities. If any high school grade (9–12) is to be added, the charter holder will provide four curriculum samples representing the four State required high school courses in Mathematics (Algebra, Geometry, Algebra II or its equivalent, and an additional course with significant math content).

Science—A Science curriculum sample must be submitted for charters requesting addition of 4th and/or 8th grade. Each Science curriculum sample must identify one performance objective (PO) from a Science strand (Strands 3–6 only). Strands 1 and 2 (Inquiry Process and History and Nature of Science) may not be the focus of review, but should be identified by number when addressed in the instructional strategies and student activities.

What about standards with several components?

Each curriculum sample must provide instruction and student activities sufficient to allow a student the opportunity to master the standard identified for review, with assessment items and scoring sufficient to allow that student to clearly demonstrate mastery. Certain standards include multiple components that describe an amount of content and/or skill knowledge that might be difficult to fully address within the page limitations described above.

If the standard has **two or fewer components** identified by lower-case letter (e.g. 3.NF.2 below), the sample must address the **complete** standard including the **overall broad standard description** (double underlined below) and **all components**.

(M) 3.NF.2:	<u>Understand a fraction as a number on the number line; represent fractions on a number line diagram.</u>
a.	Represent a fraction $1/b$ on a number line diagram by defining the interval from 0 to 1 as the whole and partitioning it into b equal parts. Recognize that each part has size $1/b$ and that the endpoint of the part based at 0 locates the number $1/b$ on the number line.
b.	Represent the fraction a/b on a number line by marking off a lengths $1/b$ from 0. Recognize the resulting interval has size a/b and that its endpoint locates the number a/b on the number line.

If the standard includes **more than two components** identified by lower-case letter (e.g. 4.W.1 below), the charter holder is required to address the **overall broad standard description** (double underlined below) and **not fewer than two components** (e.g. 4.W.1, b. and d., underlined below). The components identified for review must address grade-level rigor (see **What is rigor?** below).

(M) 4.W.1	<u>Write opinion pieces on topics or texts, supporting a point of view with reasons and information.</u>
a.	Introduce a topic or text clearly, state an opinion, and create an organizational structure in which related ideas are grouped to support the writer's purpose.
b.	<u>(M) Provide reasons that are supported by facts and details.</u>
c.	Link opinion and reasons using words and phrases (e.g., for instance, in order to, in addition).
d.	<u>(M) Provide a concluding statement or section related to the opinion presented.</u>

What is rigor?

For the **Reading and Writing** curriculum samples, the requirements include addressing the grade-level rigor defined by the listed standard. For the purposes of this request, **grade-level rigor** is the expectation set by Arizona's College and Career Ready Standards that includes a level of content and/or skills the student must master at that grade level. The increased rigor at each grade level can be identified by the changes in the standard description from the same standard at the prior grade level.

For the **Mathematics** curriculum samples, the requirements include addressing the grade-level rigor defined by the listed standard. For the purposes of this request, **grade-level rigor** is the expectation set by Arizona's College and Career Ready Standards that includes a level of conceptual understanding, procedural skill and fluency, and application the student must master at that grade level, as defined by the standard description.

Mathematics: one standard from Mathematics to be the focus of review, along with the Standard(s) for Mathematical Practice addressed by the instructional strategies and student activities in the curriculum sample. Standards for Mathematical Practice may not be the focus of review, but should be identified by number when addressed in the instructional strategies and student activities. If any high school grade (9–12) is to be added, the charter holder will provide four curriculum samples representing the four State required high school courses in Mathematics (Algebra, Geometry, Algebra II or its equivalent, and an additional course with significant math content).
