JESSICA SOLIS

SO CHOICE

I enrolled in an alternative charter high school on 8/9/2017 . When I enrolled, I only had 5.25 credits.

MOTIVATE-Traditional high school didn't work for me because all of the courses were very challenging and I did not get needed support.

My Alternative Ed. teachers helped by being there for me and my baby.

My favorite part of the school was I could bring my baby while I was learning and my teachers were AMAZING.

EDUCATE & GRADUATE-I graduated in January/2019 from Student Choice High - Kroc. Aside from being a wonderful mother of my 10 month old baby, Camila and working, I do plan on attending college and becoming a dental hygienist.

CARLTON SIMMONS

I enrolled in an alternative charter high school in 8/2017 . When I enrolled, I only had 13 credits.

MOTIVATE-Traditional high school didn't work for me because there was too much drama, no interaction with other students, and I could not focus in class.

My Alternative Ed. teachers helped by motivating and supporting me with any learning challenges that I have.

My favorite part of the school was the teachers.

EDUCATE & GRADUATE-I graduated in April, 2018 from Student Choice High-Kroc and I currently attend South Mountain Community College majoring in Psychology. Additionally, I am working at The Salvation Army-Kroc Center as an attendant in the Sports Department.

SO CHOICE!
