## Academic Systems Review

As part of the renewal process, Board staff conducted an Academic Systems Review (“ASR”) to gather evidence that demonstrates that the school implements a comprehensive program of instruction and measures pupil progress toward pupil outcomes, as required in its charter contract. The Board has established criteria comprised of questions that guides the staffs’ visit. This report includes information regarding how the school develops and implements:

- a curriculum that improves student achievement.
- a system for monitoring the integration of the State academic standards.
- a system for monitoring and documenting student proficiency.
- a professional development plan that supports effective implementation of the curriculum.

The ASR site visit was conducted by Rachel Hannah, Education Program Manager and Ericka Ciganek, Education Program Specialist on February 28, 2017.

At the ASR site visit, one area, availability of information about instructional staff’s experience, was found to be out of compliance. The Charter Holder provided instructional staff resumes as follow-up documentation to Board staff after the site visit. This area has been brought into compliance.

Classroom observations completed during the ASR site visit confirmed that the Charter Holder is adhering to the Program of Instruction on file in the contract.

Additionally, at the ASR site visit, the Charter Holder was able to provide documentation and describe processes in place to show that the school implements a curriculum that improves student achievement, a system for monitoring and documenting student proficiency, a system for monitoring the integration of State academic standards in instruction, and a professional development plan that supports effective implementation of the curriculum.

Detailed information regarding the ASR is provided in Appendix C. Academic Systems Review Report.
