
AGENDA ITEM: Submission of improvement plan to the charter sponsor

Charter holders that have schools identified as first year Underperforming under AZ LEARNS were required to create and submit a school improvement plan. A.R.S. § 15-241.M requires that a charter holder provide a copy of the plan to its sponsor. The agenda item is for the purpose of acknowledging that all charter holders required to submit an improvement plan have done so timely. The improvement plans are not included in the Board materials, but are accessible from the Department of Education if requested. No action is necessary.
