### **Purpose**

The School Location Amendment Request is used if the charter holder needs to change a charter school's physical address currently on file with the Board and provides the charter holder the opportunity to request an increase in the enrollment cap (if needed) in one submission.

A request including an increase in enrollment cap must be submitted timely so that it may be processed within the timeframe provided in Rule and implemented according to the ADE School Finance Policy SF-0001— Charter Enrollment Cap Amendments. An enrollment cap is not effective until approved by the Board.

It is not necessary to file this request to change the school's mailing address or phone/fax numbers on file with the Board. The authorized charter representative should log in to the ASBCS online system, choose the appropriate school, and click the "edit address" or "edit phone and fax number" link. Please note this change will still require the charter representative to upload board minutes indicating the change has been approved.

Before submitting this request, **ensure the charter holder is in compliance per the Board's <u>policy</u>**. If a charter holder is not in compliance, the request may be deemed incomplete and the non-compliance may be recorded on the charter holder's operational dashboard.

# **Determining Eligibility**

Any charter holder is eligible to submit a School Location Amendment Request.

To determine whether your charter is eligible to increase the enrollment cap, a charter holder, its Associated Schools and Associated Charters (as applicable) must meet eligibility criteria based on its performance on the academic, financial, and operational dashboards. An eligible charter holder may submit a request to increase the enrollment cap for up to three fiscal years of projected student enrollment. The criteria is found in the "Eligibility Criteria" in <a href="The Guide">The Guide</a>.

### **Board Consideration**

A substantively complete amendment request to **only** change the school's location may be considered for approval by the Executive Director or may be placed on the agenda of a regular Board meeting.

A substantively complete amendment request that **includes** an increase in enrollment cap that meets the eligibility criteria shall be placed on the agenda of a regular Board meeting. The Board will take action to approve or deny both requests simultaneously. If you prefer each request to be considered separately, submit the enrollment cap request as a separate form.

If a charter holder is eligible to submit a request to increase the enrollment cap, it must maintain eligibility prior to Board consideration. For information on maintaining eligibility review the section on "Eligibility Criteria" in The Guide.

A finding that the charter holder is not in compliance in one or more operational areas may result in a delay in consideration of the request.

If the Board approves a request to increase enrollment cap of a charter contract and the *Occupancy Compliance Assurance and Understanding form* is submitted, the request to increase enrollment cap is approved with the condition that the charter holder agrees to provide a Certificate of Occupancy and Fire Marshal's reports approved for educational use, for the additional increase of students within the fiscal year requested. If the charter holder does not fulfill those requirements, the charter holder will have to resubmit an enrollment cap request to the Board for its approval.

# **Staff Recommendation for an Enrollment Cap Increase**

A *School Location Amendment Request* that includes an increase in the enrollment cap will receive a staff recommendation *for* the expansion if the charter holder's current data and performance demonstrates all of the following criteria:

Charter holder has been in operation for three years;

Rating of "Meets Operational Standard" in the most recent Fiscal Year;

Rating of "Meets Financial Performance Standard" in the most recent Fiscal Year;

Past enrollment trends indicate need for increase within three years;

ADM is within 85% of current enrollment cap; and

Each school operated by the charter holder performs at or above the average performance of a majority of schools within a five-mile radius of the school's location;

#### OR

School(s) offers a unique program of instruction within a five-mile radius of the school's location.

# **Instructions for the Request**
